

[MASTER PLAN OF THE FACULTY OF SCIENCES]

The Master Plan Committee of the Faculty of Sciences has agreed to approve the initial elements of the Plan (Validity, Mission, Vision and Values).

VALIDITY OF THE MASTER PLAN

The Master Plan will be in force from October 2016 until September 2020.

MISSION OF THE FACULTY OF SCIENCES

(What we are at present)

The Faculty of Sciences is a public university establishment formed by a community of people whose objectives are the academic training, in science and technology, of students, professionals and researchers. It also aims the generation, dissemination and knowledge transfer to provide solutions to the problems posed by society.

VISIÓN OF THE FACULTY OF SCIENCES

(What we want to be in the year 2020)

The Faculty of Sciences of the University of Cádiz works to consolidate itself as a establishment of reference in teaching, research and interaction with its environment and it wants to be recognized for the quality of its graduates, the internationalization of its activities and the collaboration with universities, companies and public institutions.

VALUES OF THE FACULTY OF SCIENCES

The Faculty of Sciences assumes the values of the University of Cádiz, specifically emphasizing the following:

- Effort and dedication
- Continuous improvement
- Participation
- Professionalism of the staff

It also adds as own values:

- Commitment
- Cooperation
- Creativity and scientific innovation
- Guidance to students and society
- Teamwork
